Resolving from Two-Faced Lines (2)

Make a normal two-faced line (boys on the outside)

Get one key couple paired
>   use ends/centers circulate, centers trade
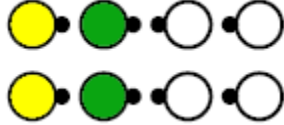

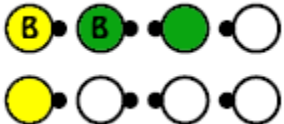

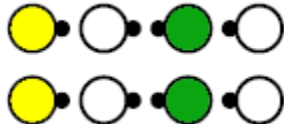

Put the key couple (#1) facing out
>   use couples circulate

Put the key couple (#1) on the outside of double pass thru formation
>   use ferris wheel

Check the other couple (#2)

If FACING and GIRLS lined up pass thru → allemande left	if PAIRED and SAME box pass thru + swing thru → grand right and left
If FACING and BOYS lined up square thru 3 → allemande left	if PAIRED and DIFFERENT box ZOOM + pass thru + swing thru → grand right and left

Tidy up
grand right and left (if necessary), promenade home
